Navigation Unit

Ending homelessness begins with YOU!

As a property manager, you have an opportunity to make a difference for those experiencing homelessness while also ensuring your business needs are met by participating in our **Housing Navigation Unit (HNU) Program**.

Our **HNU** connects those that are in need of housing with housing opportunities through local property managers. After the placement, our HNU provides continued benefits and support to participating property managers. That means low risk with the high reward of filling your properties while helping others find stable housing.
